PROFESSIONAL SUMMARY

Software Engineer with 4 years of experience building scalable web applications using ASP.NET Core Web API, MVC, Angular, TypeScript, and SQL Server. Strong in backend API development, database design, real-time features, push notifications, and Azure/Azure DevOps deployments. Experienced across event management, healthcare, and B2B quotation platforms with full-stack delivery ownership.

TECHNICAL SKILLS

Languages: C#, TypeScript, JavaScript

Backend: ASP.NET Core, ASP.NET Web API, Entity Framework Core, Entity Framework, LINQ, ASP.NET MVC, REST APIs, SignalR, Firebase Cloud Messaging

Frontend: Angular, HTML, CSS

Database: SQL Server, Database Design, Query Optimization

Cloud & DevOps: Microsoft Azure, Google Cloud Platform (GCP), Azure DevOps, Git, Docker, Internet Information Services (IIS)

Methodologies: Agile Methodologies, Object-Oriented Programming

PROFESSIONAL EXPERIENCE

Software Engineer | Mobmaxime | Dec 2023 - Present

- Develop and deploy high-performance ASP.NET Core Web APIs with SQL Server database design and Azure DevOps CI/CD support.
- Implement Firebase Cloud Messaging push notifications and SignalR-based real-time chat/features for production applications.
- Contribute to event and healthcare platforms, covering backend services, secure file handling, payment logic, and mobile API integration.

Trainee Software Engineer | Halma India | Apr 2023 - Nov 2023

- Improved application quality through bug fixing, testing, code review support, and release stabilization.
- Used SonarQube and coding standards to track issues, improve maintainability, and support reliable software delivery.

Full Stack Developer | Keysource Infotech | Jul 2021 - Jan 2023

- Built full-stack modules using Angular, ASP.NET Web APIs, and SQL Server, from database schema design through frontend integration.
- Integrated backend APIs with Angular applications and handled deployments on local IIS and live environments.
- Delivered a B2B vendor quotation system with dynamic pricing, custom calculations, and printable quote output.

SELECTED PROJECTS

Group & Event Collaboration Platform - Back End Developer

- Built ASP.NET Core APIs for group/event workflows including RSVP tracking, polls/votes, checklists, choice lists, secure uploads, and participant documents.
- Implemented backend logic for event fees, fines, participant assignments, notifications, and high-volume user activity.

Secure Home Healthcare Service Coordination Platform - Back End Developer

- Developed healthcare workflow APIs connecting NGOs, companies, nurses, doctors, and service assignments.
- Implemented license/profile verification, assignment creation, shift scheduling, Clock-In/Clock-Out, and Firebase notification alerts.

Vendor Management & Custom B2B Quotation System - Full Stack Developer

- Designed normalized SQL Server schema, Angular vendor screens, and ASP.NET Web APIs for dynamic pricing based on size/material rules.
- Created printable quotation templates with browser-based PDF generation via print workflows.

EDUCATION

Master of Computer Application (MCA), B.H. Gardi College of Engineering & Technology, GTU, Ahmedabad | 2020 - 2022

Bachelor of Computer Application (BCA), Bhavan's Shree H.J. Doshi IT Institute, Saurashtra University, Rajkot | 2017 - 2020
